

# LSAB Group acquires Micor AB

As part of LSAB:s strategy to keep the position as market leader in solutions for the wood-industry, LSAB has acquired Micor AB. This will widen the LSAB product portfolio and significantly increase capacity.

*"We are proud to add Micor AB to LSAB Group. This opens up a number of possibilities for us, not only regarding products, but also by getting access to Micors large network of resellers outside of Sweden. The benefits we gain fits perfectly with our strategy".*

HANS EKHOLM, CEO LSAB GROUP

Micor AB develops and manufactures circular saw blades for industrial applications. The company was founded in 1955 and was one of the pioneers behind the technology of braced carbide teeth on circular blades. Today, Micor AB is a well known supplier to the wood-industry in Sweden as well as abroad. LSAB can now offer a large variety of saw blades together with knowledge and experience. We call it "cutting excellence."
